

CAKE DECORATING GETS A MAKEOVER WITH FANCY, EDIBLE JEWELRY!

-Cake Crystals Designs Are a Perfect Addition for Any Party-

Bradley, WV – June 1st, 2010 – Making the perfectly delicious cake can be tough, and even more difficult can be decorating the baked goods. However, adding beautiful bling to your next cake design just got a lot easier thanks to Cake Crystals! Today, Orca Communications LLC is proud to announce Cake Crystals as part of the Super Women, Super Companies Shared Spotlight campaign.

Cake Crystals are a beautiful addition to any cake that could use a little something more. Designed by entrepreneur Lisa Adkins, Cake Crystals was created after a lengthy search for similar decorations. Adkins, who also owns a successful cloth diaper company, decided it was time to take matters into her own hands and find a candy manufacturer who could create the beautiful design ideas and turn them into a great cake decorating idea for everyone to enjoy.

Available in five different colors and flavors, Cake Crystals are the only three dimensional cake decorating accessories that look like the real thing! The beautiful gem-like designs are not only beautiful, they are edible, making these cake crystals the ONLY crystal you should chose for your next decorating project. Check out www.cakecrystals.com for a closer look at the next big thing in cake decorating!
